

BGC Agriculture & Food

We find strength in our youth and our background in nature...

As BGC Agriculture and Foods Ltd. we started our adventure inheriting the experience of our family who had been into agriculture and food for over 30 years, adding an innovative approach. In the year 2009, we carried our agricultural activity to the industrial scene with our factory where the eventual product is produced. We stayed true to the tradition; but we did not close the doors on future. We discovered new tastes blending our local flavors with a modern touch. Now, it is time to meet Galen, the means to our journey to the World of Tastes!

Meet GALEN...

It is the only brand of BGC Agriculture and Foods Ltd. setting off with the aim of bringing the tastes of the unique Aegean nature to your table. The most outstanding feature of Galen is that its customers, just like the Galenos, the Empire of the Doctors, from which its name is derived, describe it as "reliable". Our aim is to make the Galen products to be known as consistently nutritious, as well as delicious and true to the Aegean traditions.
